[OPTS-2600003; FRL-3571-9]

Fees for Processing Premanufacture Notices, Exemption Applications and Notices, and Significant New Use Notices; Change in Mailing Address

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; change.

SUMMARY: The Environmental Protection Agency (EPA) is issuing this rule to change the mailing address for remittance of user fees under section 5 of the Toxic Substances Control Act (TSCA). This amendment establishes a unique address for the remittance of these fees which should reduce delays in notifying appropriate EPA staff of user fee receipt.

EFFECTIVE DATE: May 18, 1989.

FOR FURTHER INFORMATION CONTACT:

Michael M. Stahl, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. EB-44, 401 M St., SW., Washington, DC 20460. Telephone: (202-554-1404), TDD: (202-554-0551).

SUPPLEMENTARY INFORMATION: This change is being made to provide a

unique mailing address for TSCA section 5 user fees. Previously, the address for TSCA section 5 user fees was the same as that for other fees submitted to EPA. The establishment of a mailing address unique for the remittance of section 5 user fees should reduce the delays in notifying appropriate EPA staff of user fee receipts. TSCA section 5 user fees that are sent to P.O. 360277M subsequent to the effective date of this amendment, will continue to be forwarded to EPA Headquarters for processing.

Because this is a non-substantive, procedural amendment, notice and comment are not necessary and this amendment becomes effective immediately upon publication in the Federal Register.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 68

[CC Docket No. 87-124; FCC 89-137]

Telephone Hearing Aid Compatibility

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission amends Part 68 of its rules to require nearly all telephones manufactured in or imported into the United States after August 16, 1989 to be hearing aid compatible. These

rule modifications were made to ensure that hearing impaired persons have reasonable access to telecommunications services and equipment and to comply with the Hearing Aid Compatibility Act of 1988.

EFFECTIVE DATE: August 17, 1989.

FOR FURTHER INFORMATION CONTACT:

Robert James, Common Carrier Bureau, (202) 634-1831.

SUPPLEMENTARY INFORMATION: This is a summary of the First Report and Order (FR&O) in CC Docket No. 87-124 adopted by the Commission on May 4, 1989, and released on May 11, 1989. The full text of the item may be examined in the Commission's Docket Branch, Room 230, 1919 M Street NW., Washington, DC, during regular business hours or purchased from the Commission's copy contractor; International Transcription Services, 2100 M Street NW., Suite 140, Washington, DC 20037, telephone (202) 857-3800.

The Commission's current rules require telephones classified as "essential"—meaning telephones provided for emergency use, coin telephones and other telephones frequently used by the hearing impaired—be internally compatible with hearing aids. A number of parties have presented arguments to us suggesting that these rules may not be enough. In response, the Commission initiated CC Docket No. 87-124, to gather information on what, if any, additional rules or rule revisions are needed to assure that the disabled of America have reasonable access to telecommunications services. In the Notice of Proposed Rulemaking phase of this proceeding, the Commission proposed that the definition of "essential telephones" be expanded to include all credit card telephones and workplace telephones located in common areas likely to be used by hearing impaired employees.

On August 17, 1988, the "Hearing Aid Compatibility Act of 1988", Pub. L. 100-394 (HAC Act) was enacted. This law amends Section 710(b) of the Communications Act of 1934. It requires almost all telephones manufactured in or imported into this country more than one year after its enactment to be hearing aid compatible. The new law exempts refurbished, repaired or resold telephones, telephones used with public and private mobile radio services, and secure telephones used for classified communications. The HAC Act provides up to three years for cordless telephones to comply with the requirement. It directs the Commission to review the exceptions for public and private mobile telephones periodically and to rescind
